

What is Passport?

Passport is an online application that helps you collaborate with Lyons Companies.

It's our central location for sharing and storing your insurance proposals, agreements, policies and other important coverage documents. The platform allows for easy access and secure document storage.

Why you should use Passport:

- ▶ Ensures security and protection of your information
- ▶ Central source for all insurance documents (self-service, no paper)
- ▶ Maintains document version control
- ▶ Accessible 24 / 7
- ▶ Passport is free
- ▶ Handles property/casualty and employee benefits insurance
- ▶ Works seamlessly for international companies

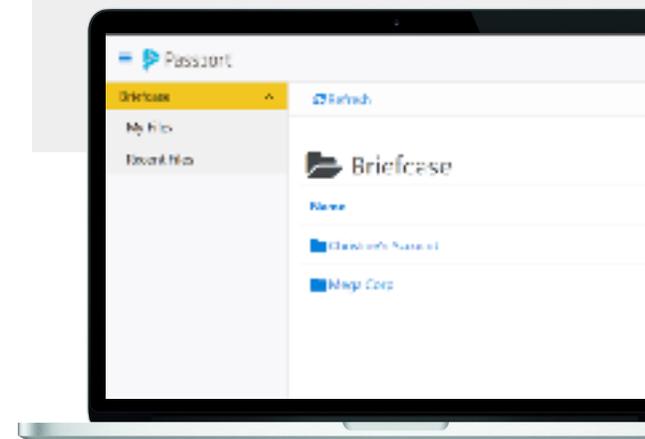

New version now available with improved functionality:

- ▶ Modern and user-friendly interface
- ▶ Works on mobile devices
- ▶ Enhanced search capabilities
- ▶ Drag and drop documents directly from your desktop

Plus, a help center featuring tutorial videos and user guides can assist you and make it easy to train new users.

Passport is powered by Assurex Global, the world's largest privately-held commercial insurance, risk management and employee benefits brokerage group. Because Passport is only available through Assurex Global brokers, it is provided to you as an additional benefit at no cost.

***We welcome the opportunity** to discuss how Passport can save you time and better manage your insurance program documents.*
